## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 4-6, 10-16, and 18-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With regard to claims 4-6 and 10-16, the reasons for allowance were set forth in the previous office action.

With regard to claims 18-21, the prior art fails to teach or fairly suggest an imaging-sensing device comprising an initial state setting portion for correcting the plurality of color signals output from each pixel according to specific correlation among the color signals at intensity of illumination and a white balance adjustment portion for further correcting the plurality of color signals already corrected by the initial state setting portion according to the specific correlation among the color signals on the basis of the detection of the signal levels as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
